What is Geekcamp?

“An international network
of technology-only
unconferences.”

Organizer of first Geekcamp in MY

Jason Ong (@jasongong)
Co-organizer of first Geekcamp in SG

WHY
are we doing this?

We usually don't know
technology
beyond our social sphere
& experience.

We like to have
a tech community
in Baguio.

Matz is nice so we are nice

But Geekcamp
is not just for Rubyists.

It's for any technologist.

This is the FIRST
advertised tech meetup
in Baguio

"I am really interested to join and the fact that a technology meetup of this sort is actually happening in Baguio (which is VERY rare) has gotten me excited."

— Erwin Simpaucio of Texas Instruments
Philippines, Inc.
