WHY  
are we doing this?

We usually don't know  
technology  
beyond our social sphere  
& experience.

We like to have  
a tech community  
in Baguio.

Matz is nice so we are nice

But Geekcamp  
is not just for Rubyists.

It's for any technologist.

This is the FIRST  
advertised tech meetup  
in Baguio

"I am really interested to join and the fact that a technology meetup of this sort is actually happening in Baguio (which is VERY rare) has gotten me excited."
